**Foster Parenting**

All children need unconditional love and support. By becoming a foster parent, you provide temporary care to children who are unable to live with their families. As a foster parent, your love, compassion, and nurturing will help them feel safe and build a foundation for trust.

If you have a big heart and a desire to care for children, call us at (917) 645-9157 to inquire about coming to one of our orientation meetings to learn all about the process.

**Adoption Program**

Sometimes children cannot be reunited with their parents. In such cases, adoption is an option that provides a child with a permanent home. Many of our foster parents go on to adopt the child who has been in their care.

**Treatment Family Foster Care Program**

TFFC is a family-based alternative for children ages 7 to 21 years of age, who would otherwise be placed in a higher level of care. The program serves children with moderate to severe emotional and behavioral issues whose needs can be met in a family setting. We offer specialized training and support to enable our TFFC foster parents to be successful.
